ProVent®

Biohazard And General Protection

ProVent® Plus Delivers Proven, Breathable Biohazard Protection For Many Applications.

- ProVent Plus coverall provides biohazard protection against blood and body fluids, fentanyl and other bio-particles.
- ProVent Plus fabric and seams pass ASTM F1671 blood and viral penetration test.
- Tactical-style garment designed for Law Enforcement drug units meets CDC/NIOSH guidelines for fentanyl protection, also consistent with IAB recommendations. *(photo on back)*
- Breathable protective fabric provides enhanced comfort.
- Available styles include gowns, lab coats.
- ProVent Plus Applications: Patient care and other healthcare settings, law enforcement drug response, lab and diagnostic services, pharmacy work, autopsies, mortuary services.

ProVent® Plus offers two styles for Healthcare and Law Enforcement Protection.

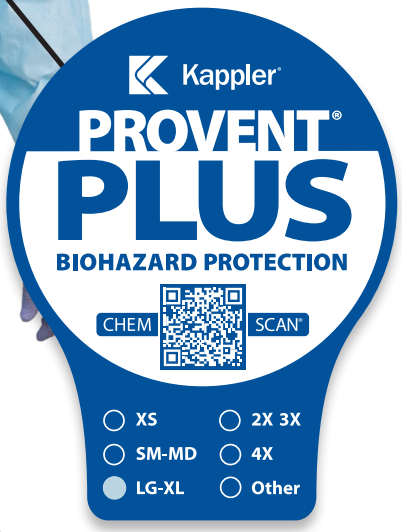
ProVent Plus is available in two coverall styles with proven protection designed for health-care, emergency response and law enforcement personnel.

Healthcare and Emergency Response (style PPH439 shown at right) Economical single-use garment ideal for healthcare and emergency response situations where there is potential blood and viral exposure including Ebola and other biohazards. This single-use garment meets OSHA and CDC guidelines for biohazard exposure.

Law Enforcement (style PPH459 shown below) Tactical-style garment designed for law enforcement drug unit response when fentanyl and other bio-particle hazards are potentially present. Provides a cost-effective multi-use, single-exposure alternative to expensive reusable garments. This style also meets PPE Guidance for Fentanyl Exposure issued by IAB and CDC/NIOSH.

ProVent® Plus

Shown above are typical garment types for this fabric. View standard styles at kappler.com or call Customer Service for custom options.



Our labels work harder, and smarter. *Kappler's unique SMART™ label makes sizing easy to see, and a quick QR code scan provides complete chemical data plus extensive suit details.*

Style PPH459 includes Sure-Fit® respirator face piece seal and rear entry design to facilitate doffing and reduce cross-contamination.

Style PPH439 meets OSHA and CDC guidelines as part of a system of components with other protective equipment including respiratory, eye and face protection, examination gloves, boot/shoe covers and over aprons.

WARNING: The information contained herein is based on technical data that Kappler believes to be reliable. It is subject to revision as additional knowledge and experience are gained. Please visit our website at www.Kappler.com ("Kappler Website") for the most up-to-date product information and specifications. All pamphlets, brochures or other literature or printed material may contain information that is not as current as the information on Kappler's website. Additionally, there are uses, environments and chemicals for which Kappler products, garments and/or fabrics are unsuitable. The user has the responsibility to review all available data and verify the product, garment and/or fabric is appropriate for the intended use and meets all specified government and/or industry standards for such use. The user should review all available information on the Kappler Website, product labels and QR codes to understand the appropriate uses and limitations of Kappler products, garments and fabrics.

CAUTION: These garments are designed for protection of personnel against short duration thermal exposures. Do not use for firefighting applications. Minimize exposure to open flame or intense heat.

ProVent Plus does not contain PFAS chemistry.
