

THIS IS ONE SAFETY MEASURE THAT COUNTS EXTRA.

Large, easy-to-read identification numbers enhance worker safety and response team effectiveness.

The ChemTape® Responder ID Kit makes it easier to manage a response situation where worker identities are obscured, allowing the Incident Commander to identify responders down-range in the hot zone. The large self-adhesive numbers can be used to identify individual workers or particular work zones, as well as manage other safety protocols. The ChemTape Responder ID Kit – another Kappler exclusive.

FEATURES & BENEFITS

- Large ID numbers enhance worker identification
- Use numbers to match suits and storage bags for better inventory control, and also match suits to users
- Self-adhesive, easy to apply
- Complete set includes 0-9

WARNING: This information is based on technical data that Kappler believes to be reliable. It is subject to revision as additional knowledge and experience are gained. The website will contain Kappler's most up-to-date product information, and customers who receive pamphlets, brochures or other literature should be aware that such "hard copy" information may not be as current as the information on Kappler's website. Customers also should recognize that there are uses, environments and chemicals for which Kappler products, garments and/or fabrics are unsuitable. It is the responsibility of the user to review available data and verify that the product, garment and/or fabric is appropriate for the intended use and meets all specified government and/or industry standards. Also, the customer should review all available information on the website to understand the uses – and limitations – on ALL products, garments and fabrics which Kappler makes available. **CAUTION:** Do not use for fire protection. Avoid open flame or intense heat.
