

KAPPLER'S 2N1® HAZMAT GLOVE IS IDEAL FOR CHEMICAL, BIOLOGICAL, CUT AND PUNCTURE PROTECTION.

The 2N1® Hazmat Glove offers an innovative solution for hand protection. Applications and hazard scenarios include scene or site evaluation, chemical or biological material handling, hazardous material clean-up and remediation and other situations where hand protection is critical.

- Multi-layered construction:
Inner layer – Inner barrier layer tested in accordance with ASTM F739.*
Outer layer – inherently fire-resistant Kevlar® fabric permanently attached to inner layer.
- Touchscreen-capable.
- Form fitting design, universal cuff, and elastic wrist stabilizer provide superior comfort and dexterity.
- Can be worn as stand-alone hand protection or with additional PPE.
- Does not contain PFAS chemistry.

Style: AGG080

Sizes: MD, LG, XL and 2XL

Case Quantity: 1 pair

**Industrial chemical testing was conducted in accordance with ASTM F739 with normalized breakthrough times reported in minutes.*

WARNING: The information contained herein is based on technical data that Kappler believes to be reliable. It is subject to revision as additional knowledge and experience are gained. Please visit our website at www.Kappler.com ("Kappler Website") for the most up-to-date product information and specifications. All pamphlets, brochures or other literature or printed material may contain information that is not as current as the information on Kappler's website. Additionally, there are uses, environments and chemicals for which Kappler products, garments and/or fabrics are unsuitable. The user has the responsibility to review all available data and verify the product, garment and/or fabric is appropriate for the intended use and meets all specified government and/or industry standards for such use. The user should review all available information on the Kappler Website, product labels and QR codes to understand the appropriate uses and limitations of Kappler products, garments and fabrics.

CAUTION: These garments are designed for protection of personnel against short duration thermal exposures. Do not use for firefighting applications. Minimize exposure to open flame or intense heat.

2N1 glove system does not contain PFAS chemistry. All product names and trademarks used are the property of their respective owners, and their use here does not imply endorsement.
