

Get Kappler Confidence At Every Level Of Protection.

General and Biohazard

From basic dirt and grime to paint spray and body fluids, Kappler's ProVent family offers the benefit of microporous fabric technology. A Kappler developed, industry leading innovation that proves protection and breathability are not mutually exclusive.

Chemical and Biohazard

As the hazards get more dangerous, Kappler's Zytron® family expands your options for chemical and biohazard protection. From low-level splash scenarios to exposure to the deadliest chemicals and biohazards, Kappler quality and innovation keep you safe.

Thermal, FR, Chemical & Biohazard

Kappler is a pioneer in the development of fabrics that combine Thermal, FR, Chemical, and Biohazard protection. From superheated steam to below-zero temperature applications, Durachem and Frontline offer multi-purpose protection for a wide range of hazards.
